Food Logistics Names Innovate E-Commerce 2022 Top Software & Technology Provider

This award honors top software and technology providers that ensure a safe, efficient and reliable global cold food and beverage supply chain.

(PITTSBURGH, PA) —December 12, 2022 — *Food Logistics*, the only publication exclusively dedicated to covering the movement of product through the global cold food supply chain, named Innovate E-Commerce as one of the winners of its 2022 Top Software & Technology Providers award, which honors software and technology providers that ensure a safe, efficient and reliable global cold food and beverage supply chain.

This year's winners are investing in and implementing emerging technologies, from mobile technology and Internet of Things (IoT) to food safety management, routing and scheduling, yard management and more. Today's software and technology offerings provide flexibility, efficiency, safety, visibility and more, and offer end-to-end management, from farm to fork, and beyond.

"The supply chain management software segment is projected to reach $18.04 billion this year, according to Statista. This includes all of the emerging software solutions such as barcode systems, FinTech, inventory control, mobile technology, robotics, wireless technology and more," says Marina Mayer, Editor-in-Chief of *Food Logistics* and *Supply & Demand Chain Executive*. "These providers and their solutions being implanted to address challenges in the cold food supply chain, whether that be port closures, driver safety or just simple automating a process."

Recipients of this year's award will be profiled in *Food Logistics'* Nov/Dec 2022 print issue. Go to https://foodl.me/h27cmu to view the full list of Top Software & Technology
